W uzupełnieniu z przystawkami, meble mogą tworzyć typowe stanowiska sekretarskie lub menadżerskie.

The addition of complementary accessories also means that this range is particularly suitable for reception or Secretarial environments.

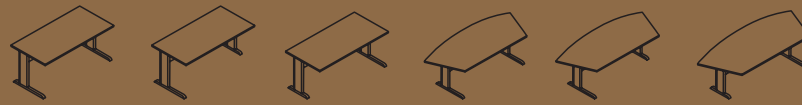

In Ergänzung mit Schreibtischansätzen können typische Sekretärinnenstandorte bzw. Rezeptionen entstehen.

Met het Axis systeem kunnen gecombineerde werkplekken worden samengesteld en door het plaatsen van een balieopstand kan het als secretariaat of receptie worden gebruikt.
